

## Certificate of Analysis

|                   |                                |
|-------------------|--------------------------------|
| Product Name      | Copper(II) chloride, anhydrous |
| Glentham Code     | GK8996                         |
| CAS Number        | 7447-39-4                      |
| EINECS            | 231-210-2                      |
| MDL Number        | MFCD00010972                   |
| PubChem SID       | 310270474                      |
| Batch Number      | 467MTS                         |
| Molecular Weight  | 134.45                         |
| Molecular Formula | $\text{CuCl}_2$                |
| Storage Temp.     | +20°C                          |

| Property               | Specification                                 | Batch 467MTS                  |
|------------------------|-----------------------------------------------|-------------------------------|
| Physical Description   | Yellow-brown to dark brown crystalline powder | Dark brown crystalline powder |
| Water Insoluble Matter | $\leq 0.25\%$                                 | 0.22%                         |
| Copper (Cu)            | $\geq 46.3\%$                                 | 46.9%                         |
| Water                  | $\leq 2.0\%$                                  | 1.5%                          |
| Assay                  | $\geq 98.0\%$                                 | 99.3%                         |

|                       |            |
|-----------------------|------------|
| Specification Version | v1.1       |
| Manufacture Date      | 2025-03-28 |
| Re-Test Date          | 2033-03-24 |

Glentham Life Sciences confirm that the above referenced product conformed to the information displayed in this document on the quality release date. Please check [www.glentham.com](http://www.glentham.com) or contact us using the details above for the current version of this document.
