

## Product Datasheet

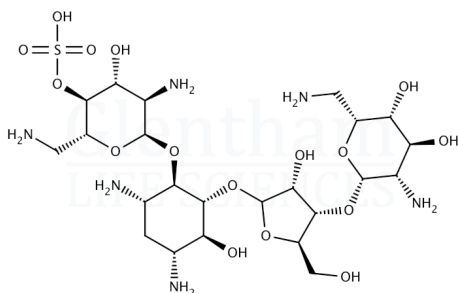

### GA3510 - Framycetin sulfate

#### Product Details

|                |                    |
|----------------|--------------------|
| Product Name   | Framycetin sulfate |
| Glenthams Code | GA3510             |
| CAS Number     | 4146-30-9          |
| EINECS         | 223-969-3          |
| Numéro MDL     | MFCD00144873       |

#### Structure

|                   |                                                      |
|-------------------|------------------------------------------------------|
| Molecular Weight  | : 712.72 (anhydrous)                                 |
| Molecular Formula | : $C_{23}H_{46}N_6O_{13} \cdot 3H_2SO_4 \cdot xH_2O$ |

#### Glenthams Product Specification

|                          |                                             |
|--------------------------|---------------------------------------------|
| Physical Description     | : White to pale yellow powder               |
| Solubility (1% in water) | : Clear, colourless to pale yellow solution |
| Loss on Drying           | : $\leq 10.0\%$                             |
| Assay                    | : $\geq 600IU/mg$ (dried basis)             |
| Version                  | : v1.0                                      |

#### About Framycetin sulfate

No further details on record.

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

|                                            |                       |
|--------------------------------------------|-----------------------|
| Not classified as dangerous for transport. |                       |
| CLP Classification                         | STOT RE 2, Repr. 2    |
| Signal Word                                | Attention             |
| Hazard Codes                               | H373, H361            |
| Precautionary Codes                        | P261, P281, P308+P313 |
| Pictograms                                 |                       |
