

## Product Specification

|               |                |
|---------------|----------------|
| Product Name  | Amphotericin B |
| Glentham Code | GA8986         |
| CAS Number    | 1397-89-3      |
| EINECS        | 215-742-2      |
| Numéro MDL    | MFCD00877763   |
| PubChem SID   | 310266813      |

|                   |                                                  |
|-------------------|--------------------------------------------------|
| Molecular Weight  | 924.10                                           |
| Molecular Formula | C <sub>47</sub> H <sub>73</sub> NO <sub>17</sub> |
| Storage Temp.     | +4°C                                             |

| Property             | Specification                                                               |
|----------------------|-----------------------------------------------------------------------------|
| Physical Description | Yellow to dark yellow or orange powder                                      |
| Residue on Ignition  | ≤ 3.0%                                                                      |
| Amphotericin A       | ≤ 15.0% (dried basis)                                                       |
| Loss on Drying       | ≤ 5.0%                                                                      |
| Potency              | ≥ 750µg/mg (C <sub>47</sub> H <sub>73</sub> NO <sub>17</sub> , dried basis) |

|                       |   |            |
|-----------------------|---|------------|
| Specification Version | - | v1.1       |
| Date Created          | - | 2018-12-11 |

Glentham Life Sciences confirm that the above referenced product conformed to the information displayed in this document on the quality release date. Please check [www.glentham.com](http://www.glentham.com) or contact us using the details above for the current version of this document.
