

## Product Specification

|               |                                                             |
|---------------|-------------------------------------------------------------|
| Product Name  | Agarose, low EEO, GlenBiol™, suitable for molecular biology |
| Glentham Code | GE6258                                                      |
| CAS Number    | 9012-36-6                                                   |
| EINECS        | 232-731-8                                                   |
| Numéro MDL    | MFCD00081294                                                |

|                   |       |
|-------------------|-------|
| Molecular Weight  | -     |
| Molecular Formula | -     |
| Storage Temp.     | +20°C |

| Property                 | Specification                                 |
|--------------------------|-----------------------------------------------|
| Physical Description     | White or off-white powder                     |
| Solubility (1% in water) | Clear to slightly turbid, colourless solution |
| Electroendosmosis (EEO)  | 0.09 - 0.13                                   |
| Gel Strength (1.5%)      | ≥ 800g/cm <sup>2</sup>                        |
| Gelling Temperature      | 35 - 40 °C                                    |
| Sulphate                 | ≤ 0.2%                                        |
| Sulphated Ash            | ≤ 0.75%                                       |
| Water                    | ≤ 10.0%                                       |
| DNase                    | Not detected                                  |
| RNase                    | Not detected                                  |

|                       |   |            |
|-----------------------|---|------------|
| Specification Version | - | v1.0       |
| Date Created          | - | 2019-02-14 |

Glentham Life Sciences confirm that the above referenced product conformed to the information displayed in this document on the quality release date. Please check [www.glentham.com](http://www.glentham.com) or contact us using the details above for the current version of this document.
