

## Product Datasheet

### GK2084 - Dimethylamine hydrochloride

#### Product Details

|               |                             |
|---------------|-----------------------------|
| Product Name  | Dimethylamine hydrochloride |
| Glentham Code | GK2084                      |
| CAS Number    | 506-59-2                    |
| EINECS        | 208-046-5                   |
| Numéro MDL    | MFCD00012477                |
| PubChem SID   | 310271990                   |

#### Structure

|                   |                                               |
|-------------------|-----------------------------------------------|
| Molecular Weight  | : 81.55                                       |
| Molecular Formula | : $(\text{CH}_3)_2\text{NH} \cdot \text{HCl}$ |

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

Not classified as dangerous for transport.

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| CLP Classification | Skin Irr. 2, Eye Irr. 2A,<br>STOT SE 3, STOT SE 3,<br>Acute Tox. 4 |
| Signal Word        | Attention                                                          |
| Hazard Codes       | H315, H319, H335, H336,<br>H302                                    |

#### Precautionary Codes

P280, P302+P352,  
P305+P351+P338, P261,  
P301+P312

#### Pictograms

#### Glentham Product Specification

|                          |                              |
|--------------------------|------------------------------|
| Physical Description     | : White powder               |
| Solubility (5% in water) | : Clear, colourless solution |
| Loss on Drying           | : $\leq 0.5\%$               |
| Assay                    | : $\geq 99.0\%$              |
| Version                  | : v1.0                       |
