

## Product Datasheet

### GK5967 - Benzoic acid

Pictograms

#### Product Details

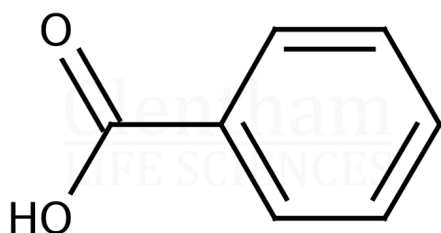

|                    |                                                    |
|--------------------|----------------------------------------------------|
| Product Name       | Benzoic acid                                       |
| Glenthams Code     | GK5967                                             |
| CAS Number         | 65-85-0                                            |
| EINECS             | 200-618-2                                          |
| Numéro MDL         | MFCD00002398                                       |
| PubChem SID        | 310267373                                          |
| Related Categories | Organics, Organic Acids,<br>Cosmetic Raw Materials |

#### Glenthams Product Specification

|                             |                              |
|-----------------------------|------------------------------|
| Physical Description        | : White crystalline powder   |
| Solubility (10% in ethanol) | : Clear, colourless solution |
| Melting Point               | : 121.0 - 125.0 °C           |
| Assay                       | : 99.0 - 101.0 %             |
| Version                     | : v1.1                       |

#### Structure

|                   |                                                |
|-------------------|------------------------------------------------|
| Molecular Weight  | : 122.12                                       |
| Molecular Formula | : C <sub>7</sub> H <sub>6</sub> O <sub>2</sub> |

#### About Benzoic acid

No further details on record.

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

|                                            |                                       |
|--------------------------------------------|---------------------------------------|
| Not classified as dangerous for transport. |                                       |
| CLP Classification                         | Skin Irr. 2, STOT RE 1,<br>Eye Dam. 1 |
| Signal Word                                | Danger                                |
| Hazard Codes                               | H315, H372, H318                      |
| Precautionary Codes                        | P314, P305+P351+P338,<br>P280, P310   |
