#### Product Details

|                |                                       |
|----------------|---------------------------------------|
| Product Name   | 5,5''-Dithio-bis(2-nitrobenzoic acid) |
| Glenthams Code | GK9458                                |
| CAS Number     | 69-78-3                               |
| EINECS         | 200-714-4                             |
| Numéro MDL     | MFCDD00007140                         |
| PubChem SID    | 310272301                             |

#### Glenthams Product Specification

|                            |                                                       |
|----------------------------|-------------------------------------------------------|
| Physical Description       | : Off-white to yellow powder or crystals              |
| Solubility (1% in ethanol) | : Clear to very faintly turbid, faint yellow solution |
| Melting Point              | : 238.0 - 245.0 °C                                    |
| Assay (HPLC)               | : ≥ 98.5%                                             |
| Version                    | : v1.1                                                |

#### Structure

|                   |                                                                               |
|-------------------|-------------------------------------------------------------------------------|
| Molecular Weight  | : 396.36                                                                      |
| Molecular Formula | : C <sub>14</sub> H <sub>8</sub> N <sub>2</sub> O <sub>8</sub> S <sub>2</sub> |
