

## Product Specification

|                   |                                  |
|-------------------|----------------------------------|
| Product Name      | DL-5-Hydroxylysine hydrochloride |
| Glentham Code     | GM1654                           |
| CAS Number        | 13204-98-3                       |
| EINECS            | 236-168-9                        |
| Numéro MDL        | MFCD00012878                     |
| PubChem SID       | 310271224                        |
| Molecular Weight  | 198.65                           |
| Molecular Formula | $C_6H_{14}N_2O_3 \cdot HCl$      |
| Storage Temp.     | +4°C                             |

| Property                 | Specification                              |
|--------------------------|--|
| Physical Description     | White to almost white powder               |
| Solubility (5% in water) | Clear, colourless to faint yellow solution |
| Melting Point            | Reported                                   |
| Purity (TLC)             | ≥ 98%                                      |
| Specification Version    | - v1.0                                     |
| Date Created             | - 2015-10-19                               |

Glentham Life Sciences confirm that the above referenced product conformed to the information displayed in this document on the quality release date. Please check [www.glentham.com](http://www.glentham.com) or contact us using the details above for the current version of this document.
