

Product Specification

|                   |   |
|-------------------|---|
| Product Name      | Copper Wire (OFHC) 0.75 mm diameter, 99.99% |
| Glenthams Code    | GX4550                                      |
| CAS Number        | 7440-50-8                                   |
| Molecular Weight  |   |
| Molecular Formula |   |
| Storage Temp.     | +20°C                                       |

| Property                    | Specification                |
|-----------------------------|------------------------------|
| Physical Description        | Uniform copper coloured wire |
| Purity (Trace Metals Basis) | ≥ 99.99%                     |
| Specification Version       | - v1.0                       |
| Date Created                | - 2024-05-17                 |
