

## Certificate of Analysis

|                   |                                               |
|-------------------|-----------------------------------------------|
| Product Name      | 2-Methoxyphenylacetic acid                    |
| Glentham Code     | GK8378                                        |
| CAS Number        | 93-25-4                                       |
| EINECS            | 202-231-4                                     |
| Numéro MDL        | MFCD00004321                                  |
| PubChem SID       | 310276346                                     |
| Batch Number      | 163QHO                                        |
| Molecular Weight  | 166.18                                        |
| Molecular Formula | C <sub>9</sub> H <sub>10</sub> O <sub>3</sub> |
| Storage Temp.     | +20°C                                         |

| Property              | Specification                                       | Batch 163QHO                 |
|-----------------------|-----------------------------------------------------|------------------------------|
| Physical Description  | White to off-white or light pink crystalline powder | Off-white crystalline powder |
| Identification (IR)   | To conform to standard                              | Conforms                     |
| Melting Point         | 122.0 - 125.0 °C                                    | 123.8°C                      |
| Assay (Titration)     | ≥ 99.0%                                             | 100.3%                       |
| Specification Version | v1.1                                                |                              |
| Manufacture Date      | 2023-06-10                                          |                              |
| Re-Test Date          | 2029-07-07                                          |                              |

Glentham Life Sciences confirm that the above referenced product conformed to the information displayed in this document on the quality release date. Please check [www.glentham.com](http://www.glentham.com) or contact us using the details above for the current version of this document.
