

## Certificate of Analysis

|                   |                                                |
|-------------------|------------------------------------------------|
| Product Name      | Propyl gallate                                 |
| Glentham Code     | GK8474                                         |
| CAS Number        | 121-79-9                                       |
| EINECS            | 204-498-2                                      |
| Numéro MDL        | MFCD00002196                                   |
| PubChem SID       | 310279317                                      |
| Batch Number      | 567PSF                                         |
| Molecular Weight  | 212.20                                         |
| Molecular Formula | C <sub>10</sub> H <sub>12</sub> O <sub>5</sub> |
| Storage Temp.     | +20°C                                          |

| Property                   | Specification                              | Batch 567PSF               |
|----------------------------|--------------------------------------------|----------------------------|
| Physical Description       | White or off-white powder                  | Off-white powder           |
| Solubility (5% in ethanol) | Clear, colourless to faint yellow solution | Clear, colourless solution |
| Melting Point              | 145.0 - 150.0 °C                           | 150.0°C                    |
| Assay                      | ≥ 98.0% (dried basis)                      | 99.5%                      |
| Specification Version      | v1.0                                       |                            |
| Manufacture Date           | 2022-12-28                                 |                            |
| Re-Test Date               | 2033-02-28                                 |                            |

Glentham Life Sciences confirm that the above referenced product conformed to the information displayed in this document on the quality release date. Please check [www.glentham.com](http://www.glentham.com) or contact us using the details above for the current version of this document.
